SPECIAL NOTE TO READER

This mimeographed manuscript has been submitted to the Historical Division, War Department, as required by W.D. Circular 64, 1945.

Limited to fifty copies, distribution of this preliminary manuscript has been made to those agencies whose early need for Order of Battle information cannot await a definitive publication, in addition to military agencies in a position to discover and report errors to the War Department.

Errors should be reported to the Director, Historical Division War Department Special Staff, Pentagon Bldg, Washington 25, DC, citing "Order of Battle, U.S. Army, World War II, ETO, Divisions", and the page number involved.

With the exception of the two manuscript volumes submitted to the War Department, the division insignia has been omitted from title pages.

FOREWARD

This book could not possibly be the work of one person. It is the result of the efforts of the Order of Battle sub-section of the Office of the Theater Historian, Hq ETOUSA (Later USFET). This sub-section was conceived early in 1945 and was authorized to commence work in March 1945 by Colonel S.L.A. Marshall, Theater Historian and operated under the general direction of Lt Col Hugh M. Cole, Deputy Theater Historian.

All together some 33 persons worked directly on the research, compilation, and production of this work. Among these, certain persons rendered outstanding and valuable service, without which the book would have never been completed. To CWO Meyer M. Cahn goes credit for organizing the research projects and driving the production through to the conclusion. To T Sgt Russell M. Viets, Tec 3 Kenneth L. Kinser, Tec 3 Paul R. Liles, and Tec 5 Arthur A. Herman who directed the individual research projects should go full credit for the complete compilation of the great wealth of detail. Four French civilian women employees who worked on the project from the beginning and rendered outstanding aid are Miss Susie Y. Aubry, Mrs Madeleine Mansuy, Mrs Elfie de Beaufort, and Mrs Margaret Weiss. Others who worked on the Order of Battle for varying periods were 1st 1st Lt George E. Moise, 1st Lt Emerson L. Batdorff, WOJG Joseph F. Bierstein, S Sgt Jorgen J. Jensen, WAC Tec 3 Pearl Snyder, Tec 3 Everett D. Clodfelter, Tec 3 Lewis W. Furda, Sgt Frank J. Beyer, Pfc Thomas R. Jurras, Pfc David A. Sherwood, Pfc Leonard L. Schneider, Pvt. George J. Hales and the following French persons: Misses Toni D. Lambert, Josette Branswyck, Genevieve Bernard, Genevieve Joachim, Coline O. Saulnier, June Grimshaw, France Baissac de Rune, Irene Ephrussi, Elizabeth Hanley and Mmes Marguerite Mirre, and Erika Kenedi. Credit should also go to the division historians who cooperated in furnishing material and checking our work.

Mine was the happier task of planning, organizing and editing the book.

Robert J. Greenwald

Office of the Theater Historian.

Paris, France.
15 December 1945.

PREFACE

"Order of Battle of the United States Army, World War II, European Theater of Operations--Divisions" was prepared in the Office of the Theater Historian, Headquarters, United States Forces European Theater, to make available an accurate digest of important facts concerning the sixty-one (61) divisions assigned to the European Theater.*

Presented in this volume are command and staff rosters, composition of divisions, attachments and detachments, assignments and attachments to higher units, command post locations and pertinent statistics. With the exception of the lists of attachments and detachments which cover only the period of combat, the material presented for each division dates from its arrival in the European Theater to the end of hostilities on 9 May 1945. For units arriving from the North African Theater, the record begins on 15 Aug 1944, the date of the invasion of Southern France. Units which arrived in the European Theater after 9 May 1945 are not dealt with in this volume.

The principal sources used were the historical records submitted by the units involved, chiefly the "After Action Reports" and supporting documents. The research procedure for each section of the manuscript differed, however, and effort was made to use every document available in the files of the Historical Section. These are specifically cited in the explanatory notes below. In addition, as research on a division was completed as far as existing records permitted, the draft manuscript was, wherever possible, submitted to the division for correction and approval. A file for each unit containing all work sheets and correspondence prepared in the course of the research has been retained and forwarded to the War Department for reference.

The project here presented was originally undertaken prior to VE Day at the same time that the research and preparation of a series of narrative monograph histories of the war was begun.

---

* Not included are:

1. Period of service of 1st Armd Div and 34th Div in UK in 1942 while based there preparatory to invasion of North Africa.
2. Period of service of 1st Div in UK in 1942 and in North Africa and Mediterranean areas in 1942-3.
3. All divisions in North Africa during the period 8 Nov 1942 (Invasion date in North Africa) to 3 Feb 1943 (when North Africa Theater of Operations was established as an independent command separate from ETOUSA).

The primary intent of preparing an Order of Battle then was to present statistical material in convenient outline and tabular form for the guidance of those engaged in more exhaustive research. It is fully recognized that a definitive order of battle must await the completion of research much more thorough than was possible under the conditions laid down for this project . What is presented here is in essence a tabulation of each unit's own official record, cross checked against other units' official records and in most cases specifically approved by the unit's historical officer. No claim is made to any higher truth than a reproduction of the essentials of the official record, as accurate as circumstances permitted.

Although the cardinal consideration in the preparation of this work was accuracy, it is realized that many inaccuracies still exist in it. It was shaped up against a deadline in only six months, in contrast to the order of battle of World War I which, with 14 fewer divisions and 59 percent fewer combat days, was not completed until 12 years after the end of hostilities. A large part of the research work and recording of facts was of necessity performed by untrained French civilian personnel; the rate of turnover among them was high and it was never possible to supervise their work in detail. Because the job was undertaken during the war and finished in the theater within a few months after cessation of hostilities, records, especially of units rapidly redeployed or demobilized here, were not always available.

But perhaps the most discouraging source of inaccuracy was the conflicting evidence of various army documents themselves on the same facts. At one period of this study, the historical section was in possession of three sets of figures showing the arrival dates of divisions on the continent. Each source would normally be considered a satisfactory one. Agreement was sought on 165 facts, but found on only 75. Yet all the sources* purported to give the same fact--the arrival date of division headquarters.

It was soon recognized that the more figures available the more disagreement was invited. By the same token, however, it was realized that no single source could be accepted as valid. The only solution seemed to be to seek by the multiplication of sources some general agreement. This was usually found and then a specific choice was made from the source which critical evaluation showed most probably reliable.

Inaccuracy crept in again in material submitted by divisions directly to the Theater Historian without the check that might have been given in the process of forwarding through command channels. Direct correspondence with the divisions furthermore was often difficult and unsatisfactory. The division historian was frequently burdened with other duties as the Division Public Relations Officer or Information and Education Officer or operational member of the G-2 Section; when redeployment had reached its peak a different historian might answer each request for information.

---

* Central Machine Records Unit, Hq ETOUSA; Hq 12th Army Group; Adjutant General of each division.

For these and possibly other reasons information submitted by the divisions was often less reliable and complete than could have been desired. When drafts were sent for review, they were sometimes returned without correction, even though it was known that inaccuracies existed. Sometimes carelessly corrected information escaped detection until final editing; it was then too late to resubmit the data because the units were redeployed or inactivated.

Inaccuracies developed in the processing of the material within the Order of Battle Section. As materials were processed they were copied many times, often by typists who were not thoroughly familiar with the problems involved. Even though careful proofreadings were given, errors continued to be found. It is evident that copyists' errors must also have been written into the records under field conditions where meticulous checking was impossible.

Finally the limitations on time and personnel made necessary a large dependence on the records of higher headquarters. It was proved time and again that on matters of detail the testimony of higher headquarters was unreliable both because of their remoteness from the event and because of the time lag in the recording of information from subordinate units. Nevertheless any other procedure would have precluded the possibility of finishing this project in the time allotted.

With all these provisos, it is probable that the errors which have unavoidably slipped by the compilers' most careful scrutiny are not so serious as to vitiate the value of the book. It is hoped that the work may still serve its original purpose in providing an Ariadne's thread through the labyrinth of facts and chronology of the military operations in the European Theater.

TITLE PAGES

Title pages consist of nicknames, significances of shoulder sleeve insignia, and mottos of each division. The sources from which this information was gathered were The National Geographic Magazine issue of June, 1943, Vol. LXXXIII, No. 6; letter, Hq ETOUSA AG File 314.7 (Op H), addressed to all divisions, subject, "Unit History Reports", dated 22 February 1945; and, information obtained from letter, Hq ETOUSA, to all divisions, subject "Historical Date on Ground Divisions", dated 4 June 1945.

This information, prepared as concisely and uniformly as possible, is not meant to give a complete picture of the background and history of the divisions' insignias. When complete information was not available, or where insignia lacks heraldic significance, only a brief description of the shoulder patch was given. The former reason applies equally as well to those divisions' title pages lacking either a nickname, a motto, or both.

COMMAND AND STAFF LISTS

Command and staff lists were originally compiled in the Historical Section from the following sources: "Rosters of Keys Officers", of divisions, corps and higher headquarters (submitted monthly by the Adjutant General of Hq ETOUSA to the War Department); "After Action Reports" with supporting documents*; and units histories.

These sources, however, proved incomplete, often lacking exact dates of assumption of command and dates of promotion. Tentative lists were therefore sent to each division historian for completion and correction.

The first date shown for each command and staff position is the date the division headquarters arrived in the European Theater and does not necessarily indicate the date the officer assumed the position, nor does it show the date that particular officer arrived in the theater. As an example, Maj Gen Edwin P. Parker, Jr, assumed command of the 78th Infantry Division on 15 August 1942. However, in this volume, the date shown opposite his name is 26 October 1944 which is the date the 78th Infantry Division headquarters arrived in the European Theater.

In the promotion of general officers, there are usually two dates involved, the date of the promotion order, and the effective date of rank. Wherever possible, the date of promotion order has been used. However, where information, missing from the records, was supplied by the division through correspondence it was not always possible to control this factor.

The reason for selecting the date of the order rather than the effective date of rank was that it conforms more nearly to the historical fact. For instance, on 6 February 1945, Special Order No. 32 War Department, promoted Brig Gen W G Weaver, Commanding General of the 8th Division to the rank of Major Generalm with an effective date of rank of 5 January 1945. In this volume, the promotion is shown on the latter det date, because prior to 6 February 1945, General Weaver was actually a Brigadier General. and all historical documents will refer to him as a Brigadier General.

---

* "After Action Reports" are prescribed by paragraph 10, Army Regulation 345-105 "Military Records -- Historical Records and Histories of Organization," dated 18 Nov 1929 as amended. After every battle or engagement with the enemy, reports were made by commanders of regiments separate battalions or squadrons, companies or detachments and by all commanders of a higher grade. It was prescribed that such reports have annexed thereto the unit and staff journals, together with supporting documents. Hq ETOUSA directed that these reports be submitted monthly. Upon receipt in Hq ETOUSA, these reports were forwarded to the Historical Section for custody and use.

Another reason for selecting the date of order, or later date, is that in some cases, a general officer was reassigned and promoted, with an effective date of rank which goes back to the period of his former command, and a date of order which applies to the command to which reassigned. Lt Gen L T Gerow was relieved from command of the V Corps and assigned to the command of the Fifteenth Army on 16 January 1945. On that date he was a major general. Several weeks later he was promoted to the rank of lieutenant general, but the effective date of this rank was retroactive to the period when he was in command of V Corps. However in no period of his actual command of V Corps was General Gerow a lieutenant general.

ARRIVAL DATES IN THE ETO ON CONTINENT

Arrival dates in the European Theater and arrival dates on the continent were originally obtained from the files of Central Machine Records Unit, Hq ETOUSA; "After Action Reports"; Unit Histories; and files of AG Operations Division, Hq, ETOUSA.

The dates derived from these sources, however, were often in conflict. All dates were recorded on work sheets and sources of the information shown. These were checked against a list of arrival dates prepared by Hq, 12th Army Group. But the resultant discrepancies were so large that a special request was submitted to all divisions to furnish exact dates. In most cases the new dates supplied agreed with those in the "After Action Reports" and unit histories. As no further check could be made short of research beyond the scope of this work, these new figures were used. In the case of units which were demobilized or inactivated before they could be contacted, the "After Action Report" or unit history dates were selected.

The arrival of a division usually extended over several days and sometimes several months. Inclusive arrival dates, however, would have involved additional complications. It was decided therefore to record only the date of arrival of the division headquarters. When headquarters itself arrived over a period of two or more days, the one date selected is that on which the main echelon closed. No attempt has been made to record the arrival of advanced detachments, which usually came to the European Theater four to six weeks before the main body.

Since the date shown is the arrival date of the main body of the division headquarters, there are cases where a division actually entered combat prior to its stated arrival on the continent. For example, the three infantry regiments of the 42d Infantry Division were committed on 24 December 1944, although the division headquarters did not arrive until 18 January 1945.

CASUALTIES (Tentative)

Casualties (Tentative) for infantry and armored divisions were taken from a special duty. "Battle and Non-Battle Casualties within Infantry and Armored Divisions", prepared by Hq 12th Army Group, and from the "G-1 Daily Summary", Hq 12th Army Group of 18 May 1945. The percentage of T/O strength was also taken from the above reports.

The Per Cent of T/O figure is merely a measure indicating the relationship between the authorized strength and the total casualties for each division. These casualty figures are based solely on data available on 18 May 1945.

Statistics for airborne divisions were obtained from division adjutant generals.

CAMPAIGNS

Most divisions furnished information regarding campaigns in answer to Historical Section request for this information. Information regarding the others was obtained from AG, Hq USFET file of letters authorizing battle participation credit for units in this theater.

PRISONERS TAKEN

Great difficulty was experienced in obtaining prisoner of war figures. The Theater Provost Marshal was able to furnish only a list of total prisoners taken by each army, and could not break it down by divisions. There is reason, furthermore, to be skeptical of any PW figure allocating specific numbers to specific combat units. The method of tabulating prisoners as they proceed from enclosure to enclosure does not guarantee that credit will be accorded to the unit responsible for capturing the prisoners.

As no central agency could furnish a divisional breakdown, and as the extent of research was limited by time and personel, request was made to all divisions to submit the figures on total prisoners captured. Most divisions answered this request, and the figure they supplied was incorporated in this volume. When, for one reason or another, no information could be secured in this way, the item was left blank.

AWARDS AND DECORATIONS

Material on awards and decorations was furnished by the Awards Branch, Adjutant General, Hq USFET. A monthly report was prepared by

that Awards Branch, based upon reports from lower units, and was forwarded to the War Department. This report showed the number and type of awards granted in each division, corps and army, and the number of awards given to personnel of each arm or service to 30 September 1945 inclusive. The cumulative total of awards shown in these monthly reports furnished the figures presented in this volume.

The figures of the total awards made by divisions are sometimes unavoidably misleading. For units which were still in the theater on 30 September 1945, this report shows awards given only up to that date. For units which departed from the theater prior to 30 September, no awards are shown after the date of departure even though it is known that awards based upon combat operations in this theater were subsequently given upon arrival of unit in the Zone of Interior. For example, the 97th Inf Div departed from the theater in May 1945. It is known that awards were given in the US based upon European combat operations. Since, however, no report was made to the European Theater, this information is not in the monthly theater reports to the War Department and is not included in this volume.

Many awards, especially Bronze Stars, were reported to higher headquarters and incorporated in the War Department monthly report but were later rescinded by lower unit orders. These rescissions were caused mostly by the transfer of personnel or the discovery that the award had previously been granted. Because of the complexity of recording each rescission at higher headquarters, the AG made no attempt to alter the original monthly figures. A small margin of error should therefore be figured in the totals shown for Bronze Stars.

Figures on Purple Heart awards were not used; since a large percentage of awards were made in hospitals, records of which were not cleared through divisions, complete data was not available.

Records of awards of Congressional Medals of Honor and Distinguished Service Medals were obtained from The Adjutant General's Office Machine Records Branch, from a special report prepared on 28 November 1945. Because of their late receipt, they are not shown in the division sections, and are listed only in Table J of Part II.

ATTACHMENTS AND DETACHMENTS

The information contained in this section was obtained partly through research by the Historical Section, and partly from lists submitted by divisions. The following sources were used by Historical Section researchers: "After Action Reports"; G-3 periodic reports of division and corps; regimental S-3 periodic reports; field orders, messages, sitreps; letters of instructions and corps troop assignment lists.

Research was a long and difficult process, and in many cases, available records did not furnish information upon which to base a complete listing. Because of insufficient records, and lack of personnel to complete the research on all 61 divisions in the time allotted, a

request was made to divisions to submit this information. Some divisions replied that they could not furnish lists of attachments and detachments from available records. Sometimes lists furnished by divisions were so inadequate that an entirely new list had to be accomplished by Historical Section research.

The principal means of verifying attachments and detachments was the find agreement in record between the unit attached or detached and the unit to which it was attached. The volume of work, however, involved in the checking of each attachment in that manner would have precluded the completion of this tentative study within the time allotted. For this reason, only detachment and attachment of regiments, combat commands, cavalry groups and organic divisional units were so checked.

Most discrepancies found were resolved by research of records available at the Historical Section. But since time did not permit the verification of all attachments or detachments lists submitted by divisions, it is to be assumed that certain inaccuracies exist for non-organic units of battalion strength or smaller.

Because records were not available, no attempt was made to show attachments prior to a division's entry into combat. Attachments shown which coincide with date unit entered combat may have been made prior to date shown.

All cavalry units listed in this study are mechanized.

When attachmentsor detachment dates were not available, the item was left blank.

ASSIGNMENT AND ATTACHMENT TO HIGHER UNIT

Assignments and attachments to higher units were originally prepared from troop assignmenttlists and "After Action Reports" of armies, corps, and divisions, in addition to card files maintained by AG Operations Division, Hq ETOUSA. The prepared lists were then submitted to each division for correction and completion. Upon receipt of corrections from divisions, lists were again checked with originals compiled by the Historical Section.

Because certain records in the historical section were available corroboration of attachments and assignments, the corrections made by the division were not accepted without further checking. Where the division agreed with statements of attachment and assignmenttin the original historical section report, no further study was made. Assignments were often made verbally, but recorded later under a different date in accordance with a written order. If records of verbal orders were found in research, the date of the verbal order was used in this report.

COMMAND POST LISTS

The initial CP lists were prepared from the following sources: 12th Army Group" G-3 (daily) Reports"; "After Action Reports"; Unit Histories (of which only six were available); SHAEF" G-3 War Room Daily Summaries"; and "Roster of Key Officers", published monthly by Hq ETOUSA.

One of the primary difficulties involved in preparing the list of command posts was the inconsistency of the records in the method of locating them. SHAEF G-3 Summaries listed them only by map grid coordinates. Most other sources indicated CP locations by towns. Twelfth Army Group G-3 Reports listed grid coordinates for division CPs, and indicated higher headquarters CPs on the map accompanying the report. Units themselves generally referred to their CP locations by relation to the nearest town. In this volume, the latter method for indicating all division CPs was adopted.

The errors involved in handling and translating coordinates were large, as was expected. The tentative lists prepared by the Historical Section were sent to divisions for check. In most cases divisions submitted entirely new lists, different both in place names and dates, in addition to revealing important omissions. In view of this, only division approved lists were incorporated in this volume.

Even the corrected CP lists submitted by the divisions, however were inaccurate, especially with regard to correct spelling of towns, and additional checking was necessary before they could be published. It was obvious that many had been carelessly prepared. Cities shown were often spelled by American phonetics without regard to the French original.

Few divisions named the departments or province of the cities listed. The task of identifying cities by departments and provinces was completed in the Historical Section. Those cities which were obviously misspelled were corrected by a careful study of the division's route of advance. Some of this had to be informed guesswork, and some errors may therefore remain.

The problem of determining the correct geographical subdivision, made necessary by the multiplication of the same place name in a single country, was further complicated by the fact that many French cities have compound names but are generally referred to in their own locality by the first name only. When divisions neglected to give the complete name of the city, there was sometimes a possibility of locating it in the wrong department. The most difficult case was St. Aubin. France. There are sixteen (16) cities named St. Aubin, plus sixty-one (61) with names including St. Aubin, like St. Aubin Celleville, St Aubin de Cretor, and St. Aubin sur Yonne.

The towns on the French border in the departments of Moselle, Bas-Rhin, and Haut-Rhin were sometimes given in German form and some-

times in French. This presented another problem in identifying the cities with the proper department.

In order to identify towns, without ambiguity, the counties were named for cities in the United Kingdom; provinces for cities in the Netherlands, Belgium, Austria and Czechoslovakia; Departments for French cities; and administrative divisions were shown for German towns. The Grand Duchy of Luxembourg has no political subdivisions equivalent in size to provinces or counties.

In Germany, where older geographical divisions were overlaid by Nazi party administrative divisions, the nomenclature as established by the Third Reich was used.

In cases where the Anglicized spelling of foreign cities or political subdivisions is more easily recognized by the general reader than is the foreign spelling, the Anglicized version has been used. For example, "Munich" has been used in place of "Munchen" and "Bavaria" in place of "Bayern". Otherwise the spelling used is that recognized by the country involved.

It will be noted that the date shown for the initial Command Post Location does not usually agree with the date shown for the arrival of the division in the theater or the first date shown for each Command and Staff officer. This may be explained by the fact that some divisions reported CPs which were set up in advance of the arrival of the main body of division headquarters; whereas, other divisions did not report a CP until the main body had actually arrived at the initial CP.

Part I -- Order of Battle of Divisions.

1 st INFANTRY DIVISION

"Fighting First Division"
"Red One Division"

The "Red One" Division achieved a number of firsts in World War I -- to arrive in France, to be at the front, to fire at enemy, to raid, to suffer casualties and to be cited in general orders. Thus the insignia is a large, red numeral "one" on an olive drab shield. The "Fighting First" also fought in North Africa and Sicily.

Motto: "Duty first"

2d INFANTRY DIVISION

"Second to None Division

This divisional insignia, according to legend, is the creation of a driver of the division who painted it on the side of his truck with such success that the resulting design evolved into the insignia of the 2d Division.

3d INFANTRY DIVISION

"Marne Division"

The three white stripes represent the number of the division and the three major operations in which the division participated during World War I. The clear field of blue stands for loyalty, steadfastness and undying devotion to the principles of right and justice by the American soldier.

4th INFANTRY DIVISION

"Ivy Division"

Inherited from the original 4th Division of World War I, the insignia is composed of four green ivy leaves attached at the stems and opening at the four corners of a square on a brown background. The word "i-vy", as pronounced, suggests the characters used in the Roman numeral "IV".

Motto: "Steadfast and loyal".

5 th INFANTRY DIVISION

"Red Diamond Division"

It is the diamond that cut into the line of the Vosges in August 1918, and by the capture of Frapelle made the only indentation suffered by the Germans in their southern sectors in three years of trench warfare; that helped shear off the salient of St. Mihiel; and that after slowly grinding the Boche out of the Bois des Rappes, became the point of an arrow that pierced the Meuse and thereby gave the division its name.

Motto: "We will"

9th INFANTRY DIVISION

"Hitler's Nemesis"

The division insignia is a red-and-blue octofoil--a design of eight petals--with a white center. The octofoil, based upon the rules of the 15th Century, was the mark of the ninth son. Red and blue are designating colors of an Infantry division headquarters flag; white is for the numbers used in divisional flags. The circular background is olive drab.

13th AIRBORNE DIVISION

"Black Cat Division"

The division insignia is a winged Unicorn in golden orange placed on an ultramarine blue shield. The Unicorn is associated, by tradition, with the qualities of virtue, courage and strength. The division is commonly known as the "Black Cat Division" because of the flaunting of superstition by its activation on Friday, 13 August 1943.

26th INFANTRY DIVISION

"Yankee Division"

During World War I, a press conference of Boston newspapermen was called by the Commanding General to determine a nickname for this division, which had just been inducted from New England National Guard units. The adopted suggestion was, "Call it the 'Yankee Division' as all New Englanders are Yankees", and a dark blue, monogrammed 'YD' on an olive drab background was officially designated as the division insignia.

29th INFANTRY DIVISION

"Blue and Gray Division"

The division insignia, as suggested by Major J.A. Ulio (later Major General, the Adjutant General), then Division Adjutant, is the monad, the Korean symbol of eternal life. It is half blue and half gray in matching teardrop design. The colors represent the tradition of the division, composed of men of both North and South, whose forefathers fought in the Union (blue) and the Confederate (gray) Armies during the Civil War.

30th INFANTRY DIVISION

"Old Hickory Division"

The "Old Hickory" Division shoulder patch was designed for 30th Division troops of World War I in honor of President Andrew Jackson, Tennessee statesman who led troops from Tennessee and the Carolinas in the War of 1812. When this insignia was first issued in France in 1918, it was inadvertently worn with the "O" on its side, but was changed in 1940 to an upright position. The insignia combines the initials "O" and "H" and the Roman numeral "XXX" in blue, with an oval-shaped background in red.

35th INFANTRY DIVISION

"Sante Fe Division"

The 35th Division insignia is a white cross within a white wagon wheel on a blue field. Built around a nucleus of Nebraska, Kansas and Missouri National Guard units, the division trained for World War I in the vicinity of the old Sante Fe trail, and therefore adopted the insignia which represents the Sante Fe Cross.

36th INFANTRY DIVISION

"Lone Star Division"
"Panther Division"

The 36th Division insignia consisting of an olive drab "T" on a blue flint arrowhead was adopted in 1918. In World War I, the division was organized from National Guard units of Oklahoma and Texas; the flint arrowhead represents the State of Oklahoma (once the Indian Territory), and the "T" is for Texas.

42d INFANTRY DIVISION

"Rainbow Division"

In 1917 men were selected from various units of the National Guard of 26 states and the District of Columbia to form a truly representative division with a view towards "bringing the war home" to the people. It was numerically designated the 42d Division, and called the "Rainbow Division" by General Douglas MacArthur, then Colonel and newly appointed Chief of Staff of the Division, because "it spanned the nation like a rainbow". To further characterize the nickname, the adopted Division insignia resembles a rainbow in bright, red, gold, and blue colors.

44th INFANTRY DIVISION

The division insignia consists of two blue figure 4's back to back on a golden orange circular background within a blue border. The colors are those of the House of Nassau, whose Dutch settlers inhabited what is now New York and New Jersey, and are used because the division was organized from National Guard units of this region.

45th INFANTRY DIVISION

"Thunderbird Division"

The division insignia is a golden thunderbird on a red square. The thunderbird is a symbol of the Southwestern Indians meaning sacred bearer of unlimited happiness. The Spanish colors, red and gold, indicate that the four States (Colorado, Oklahoma, New Mexico, and Arizona) represented by National Guard units in the division were settled by the Spaniards. Each side of the square represents a State.

63d INFANTRY DIVISION

"Blood and Fire Division"

The division insignia is a blood-tipped golden sword on a sheet of crimson flame. The Commanding General, Major General L.B.Hibbs, inspired by the promise to the enemy of President Roosevelt and Prime Minister Churchill at Casablanca in 1943 "To bleed and burn in expiation of their crimes against humanity", developed this emblem. A card showing the emblem explaining its significance, and containing the signatures of 10 civil and military leaders of Great Britain and the United States who were participants at the Casablanca Conference, has been placed in War Department archives.

65th INFANTRY DIVISION

The 65th Infantry Division shoulder patch is a white halbert on a blue shield. The halbert, a sharp pointed battle-ax, was a potent weapon of the 15th Century foot soldier, being suitable either for a powerful cutting smash or for a quick thrust. It was selected by Major General S.E. Reinhart, Commanding General of the 65th, as an emblem that would signify both the shock action and the speed of the modern infantry division.

66th INFANTRY DIVISION

The division insignia is a black panther's head on a circular orange background within a red border. The black panther was chosen to symbolize the attributes of a good infantryman: ability to kill, to be aggressive, alert, stealthy, cunning, agile, and strong.

70th INFANTRY DIVISION

"Trailblazers"

The division insignia consists of a white ax, a snowy mountain, and a green fir tree on a red background. The white ax is in recognition of the pioneers who travelled the Oregon Trail to the Willamette Valley, site of Camp Adair where the greater part of the division's training was accomplished;the snowy mountain represents Oregon's Mt.Hood; and the green fir tree finds its origin in the insignia of the 91st Division, from which the cadre of the 70th Division was drawn.

76th INFANTRY DIVISION

"Onaway Division"

The division insignia is an escutcheon which has a red field and a blue chief, separated by an olive drab line; a three-pronged white device is superimposed on the blue chief. The white device was a medieval English heraldic symbol meaning "first son". In World War I the 76th was the first division of the National Army to be drawn from civilian ranks through the draft, hence the insignia and the description, "the first sons of the nation".The combined colors of the field,the device, and the chief are the national colors. "Onaway" is the alert cry of the Chippewa Indians,in whose hunting grounds the 76th Division trained.

78th INFANTRY DIVISION

"Lightning Division"

The "Lightning" shoulder patch originated in World War I. The battles of the 78th Division were likened by the French to a bolt of lightning, leaving the field blood red. Thus the insignia became a single streak of lightning across a red field.

Motto: "Audaciter".

79th INFANTRY DIVISION

"Cross of Lorraine Division"

The insignia of the 79th Division is a gray Lorraine cross on a blue shield with a gray border; it was adopted during World War I. Having distinguished itself at Montfaucon, in Lorraine, the division selected the Cross of Lorraine, a symbol of triumph since the 15th Century, as its insignia.

80th INFANTRY DIVISION

"Blue Ridge Division"

The division insignia is a white bordered escutcheon of gold emblazoned with three azure blue mountain peaks. It symbolizes the three "Blue Ridge" States, Pennsylvania, Virgina and West Virginia, from which the majority of the 80th's World War I personnel were drawn.

82 d AIRBORNE DIVISION

"All American Division"

The division insignia consists of the letters "AA" inscribed in white on a blue circle, which in turn is superimposed on a bright red square background. The 82d Infantry Division in World War I was comprised of soldiers from every state in the Union and therefore, the nickname "All American" was adopted and "AA" was included in the insignia. When in 1942 the 82d was reactivated and made airborne, the word "Airborne", in white letters, was placed on a crescent-shaped blue background, and added to the top of the insigina.

83 d INFANTRY DIVISION

"Thunderbolt Division"
"Ohio Division"

The division insignia consists of a monogrammatic design in gold spelling out the word "O-H-I-O" on a black triangular background. The insignia was selected during World War I because the division contained mostly Ohio draftees. Even though the division changed from an Ohio outfit to one representing the 48 States, the insignia still remains; however, a new nickname "Thunderbolt", was selected while the division was holding on the Rhine opposite Dusseldorf.

84 th INFANTRY DIVISION

"Railsplitter Division"
"Lincoln Division"

During World War I the 84th Division was referred to as the "Lincoln" division because it was primarily made up of National Guard units from Illinois, Kentucky, and Indiana--the Lincoln states. Its original insignia was a red ax on a white background within a red circle, with the name "Lincoln" above the ax and the number "84" below it. The present insignia consists of a white ax splitting a white rail on a red circular background. Both insignias recall President Lincoln's youthful use of the ax. With the addition of a split rail, the division adopted the new nickname of "Railsplitters".

86th INFANTRY DIVISION

"Blackhawk Division"

The division insignia consists of a small red shield with the initials "B" and "H" in black superimposed upon a design of a blackhawk which, in turn, is superimposed upon a red shield. The personnel of the division was originally drawn from the states of Illinois, Wisconsin, and Minnesota, formerly the territory inhabited by Chief Black Hawk and his tribe. The insignia is a tribute to the pioneers of this sector, and in recognition of their prowess in battles with the Indians. The bird symbolizes keenness, cunning, and tenacity.

87 th INFANTRY DIVISION

"Golden Acorn Division"

The division insignia consists of a golden acorn on a circular green background. The acorn was chosen by the division during World War I to signify strength.

Mottos: "Stalwart and Strong" and "Sturdy as an Oak".

89 th INFANTRY DIVISION

"Middle West Division"
"Rolling W Division"

The division insignia consists of a black "W" within a circular black border. The division personnel, during World War I, was drawn primarily from the Middle West, and the "W" indicates its western origin; when inverted, the letter becomes "M" anddthus the name, "Middle West" Division. On its side, the letter represents the Greek letter "sigma", the symbol of summation that is, coordination or single effort. The circle is that geometrical figure which can come to stability in any position, yet move rapidly in answer to a change of forces.

Motto:"Get It Done!"

90 th INFANTRY DIVISION

"Alamo Division"
"Tough Ombres"

The division insignia consists of a monogrammatic red "T" and "O" on a square olive drab background. It was adopted by the 90th Division during World War I because most of its original personnel were drafted from Texas and Oklahoma.

95 th INFANTRY DIVISION

"Victory Division"

The division insignia consists of a monogrammatic red "9" and a white Roman "V" on a blue elliptical background. The Roman "V" signifies the division nickname, "Victory Division"; and the combination of the Arabic "9" and the Roman "V" represent the division's number. The red white, and blue colors parallel the colors of the American flag.

97 th INFANTRY DIVISION

The division insignia consists of a white trident on a blue shield within a white border. Neptune's trident was originally adopted to represent the coastal states of Maine, Vermont and New Hampshire, from which personnel for the division was drawn in 1918. The three prongs of the trident represent the three states; the blue symbolizes the states numerous fresh water lakes; and, the white of the border and trident represents the snow that covers these states' picturesque mountains.

99 th INFANTRY DIVISION

The division insignia is a three lined checkerboard design of blue and white squares centered on a black shield. Originally planned as a Pennsylvania unit, the horizontal band of white and blue squares was adopted from the coat of arms of William Pitt for whom the city of Pittsburgh was named. The black background represents the iron district of Pennsylvania.

100 th INFANTRY DIVISION

"Century Division"

The division insignia consists of the Arabic number "100" centered on a blue shield; the upper half of the number is in white and the lower half in gold. The insignia has no heraldic significance.

Motto: "Success in Battle".

101st AIRBORNE DIVISION

"Eagle Division"

The division insignia is a white eagle's head with a gold beak on a black shield. The design is based on an American Civil War tradition. The black shield recalls the "Iron Brigade", one of the forerunners of the 101st Division. One regiment of the brigade possessed the famous war eagle, "Old Abe", pictured on the shield, that went through 36 battles as a fierce, screaming mascot and was wounded twice. When the division was activated in 1942, the word "Airborne", in gold letters, was placed on a crescent-shaped black background and added to the top of the insignia.

102 d INFANTRY DIVISION

"Ozark Division"

The division insignia combines a golden "O", "Z", and an arc on a circular blue background to spell out the nickname of the division, "Ozark". In 1921, the division became part of the Organized Reserve and was allocated to the states of Arkansas and Missouri, the Ozark region, and therefore adopted the design. When the French settled in this area, they found it inhabited by Indians who were very proficient with the bow and arrow, and they therefore called the entire region "Terre aux arcs" or "Bow Country". "Ozark" is an Americanization of "aux arcs", and the arc in the insignia actually represents an Indian bow and signifies marksmanship. Gold and blue are the colors which tradition has always associated with valor and distinction.

Motto:
"Distinction, Valor, Marksmanship"

103 d INFANTRY DIVISION

"Cactus Division"

The division insignia consists of a yellow disc with a green Saguaro cactus superimposed upon a patch of blue, and was adopted in 1922 when this reserve division had its headquarters in Denver, Colorado. The yellow disc represents a golden sky, while the green cactus growing out of the blue sage-covered earth characterizes the southwest.

104 th INFANTRY DIVISION

"Timberwolf Division"

The division insignia is a gray Timberwolf's head on a balsam green disc. It was designed by Charles Livingston Bull, artist and authority on wild life, and represents the northwest. It was in this section of the country that the 104th conducted its training in 1942-43 when it was activated.

Motto: "Nothing in Hell Can Stop the Timberwolves".

106 th INFANTRY DIVISION

"Golden Lion Division"

The division insignia is a golden lion's face on a blue background encircled by white and then, red borders respectively. The blue represents the Infantry and the red, the supporting Artillery. The lion's face is indicative of strength and power.

2d ARMORED DIVISION

"Hell On Wheels"

The mixture of insignia and distinctive colors of several arms incorporated in the Armored Force symbolize integrity and esprit. It is an interlocked ornament, found in Nordic monuments, composed of three torques: red for Artillery; blue for Infantry; and yellow for Cavalry. The symbols represent the characteristics of Armored Divisions: the tank track, mobility and armor protection; the cannon, fire power; and the red bolt of lightning, shock action.

3d ARMORED DIVISION

"Spearhead"

The mixture of insignia and distinctive colors of several arms incorporated in the Armored Force symbolize integrity and esprit, It is an interlocked ornament, found in Nordic monuments, composed of three torques: red for Artillery; blue for Infantry; and yellow for Cavalry. The symbols represent the characteristics of Armored Divisions: the tank track, mobility and armor protection; the cannon, fire power; and the red bolt of lightning, shock action.

4th ARMORED DIVISION

The mixture of insignia and distinctive colors of several arms incorporated in the Armored Force symbolize integrity and esprit. It is an interlocked ornament, found in Nordic monuments, composed of three torques: red for Artillery; blue for Infantry; and yellow for Cavalry. The symbols represent the characteristics of Armored Divisions: The tank track, mobility and armor protection; the cannon, fire power; and the red bolt of lightning, shock action.

5 th ARMORED DIVISION

"Victory"

The mixture of insignia and distinctive colors of several arms incorporated in the Armored Force symbolize integrity and esprit. It is an interlocked ornament, found in Nordic monuments, composed of three torques: red for Artillery; blue for Infantry; and yellow for Cavalry. The symbols represent the characteristics of Armored Divisions: the tank track, mobility and armor protection; the cannon, fire power; and the red bolt of lightning, shock action.

C. ORGANIC COMPOSITION OF DIVISIONS

Airborne

The first line for each division is the organization prior to 1 March 1945, and the second line shows the composition after that date. All units omitted in the second line were inactivated or disbanded on 1 March and all additional units listed were activated or assigned on that date.
